GEORGE AULISIO and DEAN KGRAGE background on the 2nd floor renovation. The Library is working with Hemmler + Camaythe original architects of the building.

Prof. Aulisio reported on the focus group results. The focus groups were hosted by Dr. Geri Barber in the Counseling and Human Services dept. Each focus group consisted of between 10 to 15 students. Some highlights from those groups were that students thought the lighting on the second floor was poor, but that issue has already been addressed with LED Cam lighting.

Another comment from the focus groups what some of the furniture in the building was dirty and dated. Over the summer those items weidentified and were either discarded or cleaned.

The students really like group study rooms and warntore. This factesulted in a change in the architectural plans. There are now an additional eight reduction in the new plans.

Evidence shows that usedents are not really using reference books somenmay be moved to the basement if they are old and not being used.

Prof. Aulisio added that the Interliabry Loan Gice was moved downstas to the 1st floor. That empty space on two will become collaborative teaching space.
